

STRATASHIELD®

DECORATIVE FLOORING

QUARTZ + FLAKE FLOORING FOR LASTING BEAUTY AND DURABILITY

The ideal floor coating system should be durable enough to withstand abuse from abrasion, impact, chemicals, and frequent cleaning and scrubbing while also maintaining a facility's aesthetics. Tnemec decorative flooring systems offer unmatched endurance and long-lasting visual appeal to cater to both needs.

Tnemec's flooring products combine the strength of a resinous flooring system with the beauty of quartz or vinyl flakes which are available in a variety of textures and finishes. These coatings help create a seamless transition from the floor to the wall, protecting against cleaning solutions, chemicals, and bacterial invasion, while eliminating unsightly grout lines, seams, or joints for water to penetrate and cause damage.

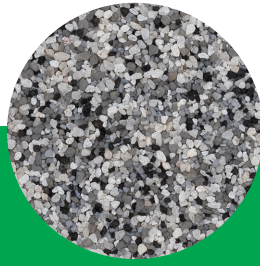

Each system can be tailored for any environment as an intermediate coat between any number of high-performance primers and topcoats.

COMMON AREAS OF USE

- Pharmaceutical plants
- Laboratories
- Food and beverage processing facilities
- Hospital operating rooms
- Locker rooms
- School cafeterias
- Veterinary facilities

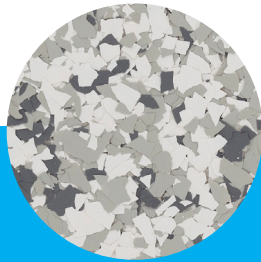

With an advanced decorative flooring system from Tnemec, you receive high-quality performance and a beautiful finish that lasts for years.

COLOR OPTIONS Choose from a range of standard and custom color blends to create a unique floor for your environment. Visit [tnemec.com](https://www.tnemec.com) for more information.

DECORATIVE QUARTZ

Series N222 Deco-Tread® and **Series N223 Deco-Trowel®** flooring products combine the strength of an epoxy resin with the beauty of multicolored ceramic quartz aggregate for a seamless, impact-resistant surface that is easy to maintain. These fluid-applied coatings help create a seamless transition from the floor to wall, protecting against cleaning solutions, chemicals and bacterial invasion and leaving no unsightly grout lines, seams or joints.

DECORATIVE FLAKE

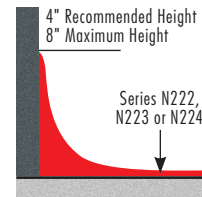

Deco-Fleck flooring systems feature multicolored vinyl flakes locked into a clear epoxy for unmatched depth and visual appeal. And, Deco-Fleck's proven formulation gives your floor extra durability, resisting abrasion and mild chemicals while remaining easy to clean.

Series N224 Deco-Fleck® can be applied as part of a custom-fit, high-performance floor system for almost any environment. This coating is designed to be an intermediate broadcast coat between any number of high-performance primers and ultra-durable topcoats. With an advanced Deco-Fleck system from Tnemec, you receive high-quality performance and a beautiful finish that lasts for years.

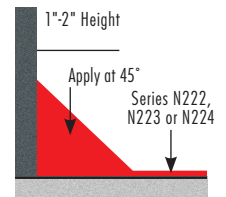

FEATURES AND BENEFITS

- Extremely durable
- Superior aesthetics
- Resists yellowing
- Seamless, monolithic surface
- Easily cleaned and maintained
- 100% solids epoxy and low odor
- VOC-compliant
